Election/Restriction

Restriction is required under 35 U.S.C. 121 and 372.

1. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-49, drawn to a method of decreasing/inhibiting coagulation or thrombosis.

Group II, claim(s) 50-59, drawn to a method of preconditioning heparin or heparin sulfate polyglycan.

Group III, claim(s) 60-71, drawn to a method of determining an amount of heparin or HSPG on a surface wall shear rate.

Group IV, claim(s) 72-73, drawn to a method of determining a wall shear rate.

Group V, claim(s) 74-82, drawn to a variant ATIII.

2. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: because Groups I-IV are methods representing alternative uses of the claimed variant. Under PCT Rule 13.1 applicant is entitled to the first product, method of making and using same, however, the instant application has alternative methods of use. Moreover, the invention of Group I does not escape the prior art because Church et al. (U.S. Patent No. 6,207,419, March 27, 2001) teach a method of inhibiting

coagulation using ATIII. Thus, these inventions are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
